

## Iroda MJ-600

### Micro-Therm Flameless Heat Gun

The Iroda MJ-600 is a self-igniting blowtorch that's ideal for the hobbyist and professional alike. Simply depress the spring-loaded button and the torch activates instantly, giving you a maximum temperature of 650°C. The windproof heating element and ignition will allow you to use this blowtorch in multiple locations. Powered by a disposable lighter, this MJ-600 heat gun is flameless and will operate for up to one hour before needing a refill.

#### Features & Benefits
