

PRO120-K

Cordless Butane Soldering Iron and Hot Knife Cutter

The PRO120 professional quality, butane gas powered soldering iron has a variable heat control equivalent to 125W and auto-ignition removing the need for flints. This light weight and portable iron can hold enough fuel for up to 200 minutes operation and is easy to refill

This high quality, top of the range PRO120 auto-ignition tool and cap is supplied with three extra tips as standard, a cored solder and cleaning sponge. All packed in a tough polypropylene carrying case.

With the addition of the PS-09 hot knife tip (included), this soldering iron can also be used as a robust and reliable hot knife cutter that is ideal for cutting and sealing braided sleeving products, ropes and cords, nylons, synthetics, webbings and elastics.

Applications

- Hot knife cutting
- Shrinking heat shrink tubing
- Soldering circuit boards
- Automotive and truck repairs
- Aviation service and repair
- Electrical components
- Environmental splicing
- Loosen rusted nuts and bolts
- Maintain switch panels
- Repair television sets, meters, switch boards
- Sensitive IC boards
- TV cable systems
