

## Master ProHeat 220

Compact Lightweight variable temperature heat-gun

The Master ProHeat 220 heat gun is designed for use in a wide range of applications, such as heating sensitive materials including shrink tubing and specialty connectors.

The gun has a built-in temperature controller that, once set, maintains a constant temperature and protects from overheating. The ProHeat 220 also features a protective switch guard, hanging loop, and a built-in stand for hands-free use. The heating element is made from ceramic and double protected for a longer life span..

The ProHeat 220 allows the user to control the temperature from 50°C to 538°C (130°F to 1,000°F) through the use of a control dial.

### Features & Benefits

- Ergonomic design for superb balance and
- Variable temperature with patented electronic temperature control system
- Pre-select and maintain any temperature from 130° - 1000°F / 50° - 540°C
- Powerful airflow at 4000 FPM and 16 CFM
- Heavy-duty Lexan® plastic housing with built-in stand for hands-free use
- Protective hand/switch guard and convenient hanging loop
- Kit includes ProHeat Varitemp Heat Gun, attachments 35016, 35017, 35292, 35293, 35294, and 35351 storage/carrying case
