

Hot air tool

## HG 2320 E

EAN 4007841351502

### Functional description

Fits perfectly in your hand and a real pleasure to use: the HG 2320 E comes with an impressive 2300W of power and delivers hot air at between 80 – 650°C. Temperature is very easy to control by the joystick, giving you absolute precision. Together with the residual heat indicator, the LCD information display ensures additional certainty while the four individually selectable programmes provide extra flexibility. In conjunction with the various push-on nozzles from the range of accessories, the HG 2320 E is an excellent choice for working on heat-sensitive objects. Also from the aspect of servicing: if the power cord ever gets damaged, it can be changed with effortless ease.

### Technical specifications

<b>Output</b>	2300 W
